# Weather Resilience Workshops

The **Northeastern Illinois Resilience Partnership** is hosting a series of neighborhood workshops to address the region's resilience to incidents of extreme weather, especially rainstorms that cause floods and related damage. The purpose of the workshops is to identify techniques and infrastructure improvements that foster sustainability and reduce damage to private and public property.

*Please attend to share ideas and concerns about the sustainability of your home, business, and neighborhood. Refreshments will be provided.*

**Meetings will be held from 6 to 8 p.m.**
